The Giant Leporello Posterbook Deep Sea

Folded between two stable covers is a five feet concertina type poster. It can be hung on the wall, be fixed to a bookshelf or just spread out onto the floor. The back of the Giant Poster comes with six densely equipped pages that contain all essential information to the huge picture at front.

The Giant Leporello Posterbook Deep Sea shows the ocean from its surface down to a depth of more than 36,000 foot along with its often astonishing dwellers and of course submersibles in which humans explore the depth of the sea.
